Summary

Frontend Developer with 5 years of experience architecting, enhancing, and maintaining live React, Next.js, and TypeScript applications for national and international clients. Proven track record collaborating remotely with overseas stakeholders, building reusable UI component systems (shadcn/ui, Tailwind CSS), optimizing Core Web Vitals and accessibility, and troubleshooting production environments using real-user telemetry.

Work Experience

Software Developer – II

Flourish Digital Enterprise - (Freelance) ***NSW, Sydney | Aug 2023***

- *Developed and implemented scalable, reusable components, improving development efficiency and ensuring a consistent user experience across platforms for Australian audiences.*
- *Led the complete project lifecycle for 2+ websites, overseeing requirements gathering, design, and deployment, while ensuring compliance with Australian privacy and accessibility laws.*
- *Applied SEO best practices, improving organic search traffic and enhancing site performance with faster load times and better crawlability.*

Frontend Developer

Dhuni Software ***Thapathali | February 2022 - Present***

- *Developed and enhanced React and TypeScript features while building reusable components and design systems.*
- *Owned frontend architecture, state management (Redux), and full lifecycle maintenance for existing production applications.*
- *Collaborated with cross-functional teams on technical requirements, code reviews, and testing to resolve production bugs.*
- *Improved application performance, lazy loading, and technical SEO to enhance user experience.*

Web developer Intern

4pix Solutions Pvt. Ltd. ***Setopool | December 2021 - February 2022***

- *Built responsive React components from Figma designs using React Hooks and Context API state management.*
- *Integrated RESTful APIs and refactored existing codebases to improve loading performance and accessibility.*

Education

Coventry University, UK **West Midlands, UK**

B.Sc.Hons in Computing (First Class) *Graduation Date: Apr, 2022*

- *Specialized in software engineering, full-stack web architecture (React, Node.js, Express, MongoDB), and Git version control.*
- *Gained strong expertise in front-end/back-end development and version control (Git).*
- *Focused on web application development using modern frameworks like React, Node.js, MongoDB, and Express.*

Reliance Internationa Academy **Chabahil, Kathmandu**

Computer Science (First Division) *Graduation Date: 2017*

App Release

Vocalpanda (Google Play Store and App Store)

- Developed and launched a mobile app available on the Play and app Store using.

Mini Champions Learning Games (iOS App Store — Australia)

- Built and published an interactive React Native (Expo) and TypeScript educational game featuring modular mini-apps (Colour Quest, Sports Explorer, Animal Finder) for an Australian client.

Freelance Projects

Mini Champions Learning Games — Web & iOS App ***Sept 2024 - Jan 2025***

https://minichampions.com.au/

https://apps.apple.com/au/app/mini-champions-learning-games/id6753577523

- *Collaborated closely with the founder to build and launch an interactive educational game across both Web and the iOS App Store using React, React Native (Expo), and TypeScript.*
- *Accelerated development using AI-assisted coding workflows, conducting thorough code reviews, refactoring, and ongoing maintenance to ensure clean, reliable production code.*
- *Built interactive learning games (Colour Quest, Sports Explorer, and Animal Finder) designed to run smoothly across both web and mobile devices.*

SOWATT - (Sydney) ***Sept 2024 - Jan 2025***

https://SOWATT.com.au/

- *Built and maintained both the frontend and backend of the live web application using Next.js, TypeScript, and Tailwind CSS, collaborating closely with a UI/UX designer.*
- *Optimized site performance, technical SEO, and user experience using Microsoft Clarity analytics.*
- *Organized periodic Google Meet check-ins with the client to align on requirements, demo ongoing development progress, and implement requested changes.*

Moolanda Early Learning - (Perth) ***Sept 2024 - Jan 2025***

https://www.moolandacare.org.au/home

- *Consulted with the client to identify pain points with their existing website, engineering a modern, accessible redesign using Next.js, TypeScript, and Tailwind CSS to resolve usability and structure issues.*
- *Held regular progress walkthroughs with the client throughout development to confirm alignment with their expectations and implement requested changes.*
- *Managed end-to-end production deployment, including DNS and email verification record migrations, ensuring a smooth launch across all devices.*

Skills

- ***Frontend & Architecture:*** *React, Next.js, TypeScript, JavaScript (ES6+), Redux, Context API, Svelte, Modular Component Architecture, State Management, RESTful APIs, HTML5, CSS3*
- ***UI Systems, Performance & SEO:*** *Tailwind CSS, shadcn/ui, Bootstrap, Design Systems, Responsive & Cross-Browser UI, WCAG Accessibility, Core Web Vitals Optimization, Semantic HTML, Schema Markup.*
- ***Mobile & Cross-Platform:*** *React Native (CLI & Expo), Android Studio, Xcode, TestFlight, Cross-Platform Deep Linking*
